

## Incubator Im IF750m

The incubator Im is a Class I medical device in accordance with the EU directive 93/42/EEC.

The unique all-round surface heating that the Memmert incubator Im features is perfect for both natural convection and forced air circulation. The fan can be switched off completely – without affecting the optimum temperature distribution. On this page, you can find all the essential technical data on our incubator. Our customer relations team will be pleased to help if you want further information. If you should require a customised special solution, please contact our technical specialists at [myAtmoSAFE@memmert.com](mailto:myAtmoSAFE@memmert.com).

The heating of this incubator is optimally tuned for forced air circulation; the fan can also be switched off completely, and valuable chamber loads for research, pharmaceuticals, medicine and food chemistry are warmed up very carefully.
